Despair, anger, lust, and countless deaths – the world was ravaged by endless war. The people cried out with despair, in hopes that they would be delivered from the darkness. Little did they know, a group of vile demons known as “Fiends” fed on their fear and hatred, fueling the war for many years. The gods of the heavens could no longer bear to witness the troubled times and decided to deliver a human child of light that could end the dark rule of the Fiends. The Fiends who heard the divine plan decided to approach Daigo Kagomitsu, a local samurai and the father to the child of light.

Daigo received a vision that he would be given the power to bring order to this chaotic world. Though he was a simple man who desired neither power nor riches, for the sake of his child, the future father was determined to bring peace to the world with his own hands.

Daigo approached the Gates of Hell, just as the vision told him, however it was the 48 Fiends and not the gods of light whom awaited his visit. He was told that the price for his absolute power would be his first-born child. Terrorized by the presence of the Fiends, Daigo’s reason and judgment failed him, and he obeyed, signing their evil contract.

A few days later, Daigo’s child was born. Daigo was overjoyed and relieved to actually see the birth of his child who he thought would be claimed by the 48 Fiends. But the next thing he knew, the newborn boy was suddenly surrounded by dark shadows. “The body of your son now belongs to the 48 Fiends. As promised, you shall be granted the power to bring order to this pitiful world.”

- 48 parts of the infant’s body were then stolen by the Fiends. Daigo cried out with anguish, but he knew what he had to do.

His wife desperately tried to stop Daigo, but he shrugged her off and headed towards the river with his infant in his arms.

A physician named Jyukai spotted the infant in the barrel floating by, while he gathered herbs near the river. Jyukai saved the infant and gave him special care, but he could not help but notice the mysterious powers the child had. Soon the child began to communicate telepathically. Jyukai responded to the child, teaching him everything he needed to know about surviving in this cruel world.

When the child turned three years old, Jyukai decided to surgically create his missing body parts using all his knowledge and art. After many hours of hard labor, the child was blessed with a complete body and Jyukai named him Hyakkimaru.

As Hyakkimaru grew older, strange demons began to appear before him. When Hyakkimaru turned eighteen, he received a message from the heavens relaying the truth behind his birth, the 48 Fiends who took his body parts, and the mission to restore his body by slaying the Fiends.

Hyakkimaru accepted his fate and vowed to defeat the Fiends. And so, Jyukai performed a final operation to equip him with various weapons. Jyukai felt this was the least he could offer to his beloved child, Hyakkimaru.

And so began the quest of Hyakkimaru...

* When you quit your game in the middle of the chapter without saving your progress, all of the items and body parts you gained since your last save will be lost.
THE FIENDS

BOSS FIENDS

Here are the boss Fiends you will face in the beginning of the Story Mode. These Fiends must be defeated to advance to the next chapter.

GREAT HORN

Great Horn uses demons called the Carrion Beetles to spread poisonous air and torture humans for their souls. With its powerful claws, the Great Horn is capable of destroying large boulders or even splitting the ground open.

HOMUNCULUS

This Fiend nearly kidnapped Dororo. The Homunculus preys upon children because it is weak and can only bully someone inferior to itself.

LEVEL OF FIENDS

Every Fiend is ranked with a Level. If Hyakki’s weapon levels are lower than the Fiend’s - more hits are required to defeat the Fiend. It is critical to constantly upgrade your weapon settings and increase your Attack Power (P.18) to match-up with the Fiends.

*The Level of the Fiend will appear before each battle.

OGRESS

This Fiend deceived the residents of Yudai Village for many years. The Ogress gives them money when the village is broke, and takes it away whenever it prospers.

SCOURGE

The Scourge has hundreds of tentacles to capture its prey. Although the Scourge is a huge Fiend, it is quite agile and dangerous.
**HIDDEN FIENDS**

Some Fiends will require a little exploration on your own to find. Seeking out for unusual settings and objects on the field will often lead you to the hidden Fiends. Dororo can help you search the field by issuing a [Search Command](#) (P.15). Once you regain a certain part of Hyakumaru's body, a text message, along with a controller vibration will also indicate whenever Hyakki enters a hotspot.

Here are some hints to find the hidden Fiends in Chapter 1. Also, whenever you replay a chapter that you have already cleared, the number of Fiends left in the area will be indicated as well as their exact location displayed on the Map (in a red dot).

**DREAMEATER**

Look for a wide tree near one of the waterfalls at Sengoku Riverside and slash the tree to create a secret path.

Walk across the tree you knocked down which acts as a bridge, leading to a room behind the waterfall where the Dreameater awaits.

**INQUISITOR**

Enter the area by the Shrine located next to Yudai's Manor, then search for the lantern that is glowing.

Destroy the illuminated stone lantern to summon the Inquisitor.

**GRAVE GOLEM**

Enter the graveyard of Yudai Village located on the right side of your Map.

Destroy all of the tombstones in the graveyard to summon the Grave Golem.

**MAIMAI'ONBA**

Search for a rock covered in talismans somewhere in the Ancient Bamboo Thicket.

Blast the rock with Hyakki's Leg Cannon and open the secret path that leads to the Maimai'Onba – but first, you will need stronger firepower to destroy the rock that blocks the way to this Fiend.

Hey Hyakki! Did ya know that we can replay any of the Chapters you have cleared? This means we don't need to defeat all the tough Fiends in our first try. I think some of the Fiends are way too strong, and it's better to get 'em when we are ready.
